Independent auditor's report

To the Shareholders and Supervisory Board of
OJSC International Bank of Azerbaijan

Opinion

We have audited the consolidated financial statements of OJSC International Bank of Azerbaijan and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2024 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' (IESBA) International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matter	How our audit addressed the key audit matter
Allowance for loans to customers and provision for credit related commitments	
Given the significance of the allowance for loans to customers and provision for credit related commitments to the Group's financial position, the complexity and judgments related to the estimation of expected credit losses ("ECL") under IFRS 9 *Financial Instruments* ("IFRS 9"), we considered this area as a key audit matter. The Group exercises significant judgment and applies estimation techniques to determine probability of default, projected exposure at default and loss arising at default, considering observed historical data, current economic situation and available forward-looking information. The calculation of ECL for financial assets on an individual basis requires scenario analysis of the estimated future cash flows considering current and projected financial performance of the borrowers and value of collateral. Information on the allowance for expected credit losses on loans to customers and provision for credit related commitments is included in Note 4 – *Significant accounting judgments and estimates*, Note 10 – *Loan to customers*, Note 20 – *Commitments and contingencies*, and Note 24 – *Risk management* to the consolidated financial statements.	Our audit procedures, among others, comprised the following: ► We evaluated expected credit loss methodology developed by the Group in accordance with the requirements of IFRS 9 to estimate allowance for impairment of loans to customers and provision for credit related commitments; ► We considered the appropriateness of the Group's definition of default and criteria for significant increase in credit risk and consistency of their application in accordance with methodology; ► We evaluated underlying statistical models, key inputs and assumptions used and assessed incorporation of forward-looking information in the calculation of ECL on a collective basis; ► We analysed the expected cash flow projections on individually significant loans, including those arising from potential sale of collateral. We considered reports of the Group's internal and external appraisers and available market information on the fair value of collateral; ► We evaluated information disclosed in the notes to the consolidated financial statements in regard to allowance for impairment of loans to customers and provision for credit related commitments.

Responsibilities of management and the Audit committee for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Audit committee is responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The partner in charge of the audit resulting in this independent auditor's report is Azer Babayev.

Ernst & Young Holdings (CIS) B.V.

Consolidated statement of cash flows (continued)

(Figures in tables are in thousands of Azerbaijani manats)

Changes in liabilities arising from financing activities comprise:

	Debt securities issued	*Other borrowed funds*	*Total*
Carrying amount at 31 December 2023	**504,403**	**229,025**	**733,428**
Cash proceeds	–	165,606	**165,606**
Buy-back and redemption	(21,509)	(165,340)	**(186,849)**
Loss recognised on repurchase of debt	199	–	**199**
Other changes	13,875	(238)	**13,637**
Carrying amount at 31 December 2023	**496,968**	**229,053**	**726,021**
Cash proceeds	100,372	105,242	**205,614**
Buy-back and redemption	(500,698)	(88,033)	**(588,731)**
Loss recognised on repurchase of debt	–	–	**–**
Other changes	3,726	(1,462)	**2,264**
Carrying amount at 31 December 2024	**100,368**	**244,800**	**345,168**

The “Other changes” line includes the effect of accrued but not yet paid interest on debt securities issued and other borrowed funds, as well as gains and losses on initial recognition. The Group classifies interest paid (including those accrued in prior periods) as cash flows from operating activities.

The accompanying notes are an integral part of these consolidated financial statements.

(Figures in tables are in thousands of Azerbaijani manats)

1. Principal activities

The OJSC International Bank of Azerbaijan ("the Bank") was incorporated in 1991 as a state-owned bank and is domiciled in the Republic of Azerbaijan.

The activities of the Bank are regulated by the Central Bank of the Republic of Azerbaijan ("the CBAR"). The Bank conducts its business under a general full banking license issued on 30 December 1992. The Bank's primary business consists of commercial activities, trading with securities, foreign currencies and derivative instruments, originating loans and guarantees.

The registered office of the Bank is located at 67, Nizami Street, AZ1005, Baku, the Republic of Azerbaijan.

As at 31 December 2024 the Bank had 73 branches (31 December 2023: 69) operating in the Republic of Azerbaijan.

The accompanying consolidated financial statements comprise the accounts of the Bank and its subsidiaries (hereinafter, the "Group"). The consolidated financial statements include the following subsidiaries:

Name	*Country of operation*	*Proportion of ownership interest (%)* 2024	2023	*Type of operation*
The International Bank of Azerbaijan OJSC	The Republic of Azerbaijan	Parent		Banking
Subsidiaries				
IBA-Moscow LLC	Russian Federation	100.0	100.0	Banking
IBA GEO JSC	The Republic of Georgia	100.0	100.0	None
Azericard LLC	The Republic of Azerbaijan	100.0	100.0	Card processing
International Leasing Company LLC	The Republic of Azerbaijan	100.0	100.0	Leasing
IBA-Invest Investment Company CJSC	The Republic of Azerbaijan	100.0	100.0	Investment

As at 31 December 2024 and 2023 shareholders of the Group were as follows:

Shareholders	*2024 (%)*	*2023 (%)*
Ministry of Finance of the Republic of Azerbaijan	88.54	92.56
State Committee on Property Issues of the Republic of Azerbaijan	3.64	3.81
CJSC Agrarkredit	0.22	0.23
Other*	7.60	3.40
Total	**100.00**	**100.00**

* *Other shareholders included minority shareholders holding an interest less than 2% each.*

In August 2020, in order to improve business activity of the government-owned organizations, the President of the Republic of Azerbaijan approved decree on establishment of Azerbaijan Investment Holding ("AIH") and on 5 November 2020, the list of state-owned companies to be transferred to the management of Azerbaijan Investment Holding was approved. The transfer of the OJSC International Bank of Azerbaijan to the management of the AIH and the regulation of a number of related issues was approved by the Decree of the President of the Republic of Azerbaijan dated 22 September 2021.

2. Basis of preparation

General

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The Group has prepared the consolidated financial statements on the basis that it will continue to operate as a going concern.

The Azerbaijani manat is the presentation currency of the Group and the functional currency of OJSC International Bank of Azerbaijan as the majority of the transactions are denominated, measured, or funded in Azerbaijani manat. Transactions in other currencies are treated as transactions in foreign currencies. The Group is required to maintain its records and prepare its consolidated financial statements in Azerbaijani manat and in accordance with IFRS. These consolidated financial statements are presented in thousands of Azerbaijani manat ("AZN"), except when otherwise indicated. The consolidated financial statements have been prepared under the historical cost convention except for premises and investment securities at fair value through other comprehensive income (FVOCI) and at fair value through profit or loss (FVPL)

(Figures in tables are in thousands of Azerbaijani manats)

3. Summary of significant accounting policies

Changes in accounting policies

New and amended standards and interpretations

The Group applied for the first time certain amendments to the standards, which are effective for annual periods beginning on or after 1 January 2024. The Group has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

The following amendments became effective for annual periods beginning on 1 January 2024:

- Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to IAS 1;
- Lease Liability in a Sale and Leaseback - Amendments to IFRS 16;
- Disclosures: Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7;

These amendments had no impact on the Group's consolidated financial statements.

Standards and interpretations issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are listed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

- *Amendments to the Classification and Measurement of Financial Instruments—Amendments to IFRS 9 and IFRS 7*

On 30 May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- A clarification that a financial liability is derecognised on the 'settlement date' and introduce an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date;
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed;
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments;
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The Amendments are effective for annual periods starting on or after 1 January 2026. Early adoption is permitted, with an option to early adopt the amendments for classification of financial assets and related disclosures only. The Group is currently not intending to early adopt the Amendments.

With respect to the amendments on the derecognition of financial liabilities that are settled through an electronic payment system, the Group is currently performing an assessment of all material electronic payment systems utilised in the various jurisdictions it operates, in order to assess whether the amendments will result in a material change with respect to current practices and whether it meets the conditions to apply the accounting policy option to derecognise such financial liabilities before the settlement date. Moreover, the Group is reviewing all its other payment systems (such as cheques, credit cards, debit cards) to ensure that the corresponding financial assets are derecognised when the right to cash flows are extinguished and that the corresponding financial liabilities are derecognised on settlement date.

In addition, the Group is assessing the impact of the Amendments on its financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features, as well as on non-recourse financing and contractually linked instruments. Based on the initial assessment performed, the amendments in these areas are not expected to have a material impact on the consolidated financial statements, however, the assessment is yet to be concluded.

3. Summary of significant accounting policies (continued)

Changes in accounting policies (continued)

► *IFRS 18 Presentation and Disclosure in Financial Statements*

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new. There are specific presentation requirements and options for entities that have specified main business activities (either providing finance to customers or investing in specific type of assets, or both).

It also requires disclosure of newly defined management-defined performance measures, which are subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified ‘roles’ of the primary financial statements and the notes.

Narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from ‘profit or loss’ to ‘operating profit or loss’ and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

IFRS 18, and the amendments to the other standards, are effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively. The Group is currently working to identify all impacts the amendments will have on the consolidated financial statements and notes to them.

Basis of consolidation

Subsidiaries, which are those entities which are controlled by the Group, are consolidated. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. All intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated in full; unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. Losses are attributed to the non-controlling interests even if that results in a deficit balance.

Fair value measurement

The Group measures financial instruments carried at FVOCI and non-financial assets such as premises, at fair value at each reporting date. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets and liabilities

Initial measurement

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value and, except in the case of financial assets and financial liabilities recorded at FVPL, transaction costs are added to, or subtracted from, this amount.

(Figures in tables are in thousands of Azerbaijani manats)

3. Summary of significant accounting policies (continued)

Financial assets and liabilities (continued)

Measurement categories of financial assets and liabilities

The Group classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at one of:

- Amortised cost;
- FVOCI; or
- FVPL.

Amounts due from credit institutions, loans to customers, investment securities at amortised cost

The Group only measures amounts due from credit institutions, loans to customers and other financial investments at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI).

The details of these conditions are outlined below.

Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Group's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected);
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The SPPI test

As a second step of its classification process the Group assesses the contractual terms of financial asset to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVPL.

(Figures in tables are in thousands of Azerbaijani manats)

3. Summary of significant accounting policies (continued)

Financial assets and liabilities (continued)

Expected credit losses for debt instruments at FVOCI

The ECLs for debt instruments measured at FVOCI do not reduce the carrying amount of these financial assets in the statement of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost is recognised in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognised in OCI is recycled to profit or loss upon derecognition of the asset.

Equity instruments at FVOCI

Upon initial recognition, the Group occasionally elects to classify irrevocably some of its equity investments as equity instruments at FVOCI when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss. Dividends are recognised in profit or loss as other income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment. Upon disposal of these instruments, the accumulated revaluation reserve is transferred directly to retained earnings.

Financial guarantees, letters of credit and undrawn loan commitments

The Group issues financial guarantees, letters of credit and loan commitments.

Financial guarantees are initially recognised in the consolidated financial statements at fair value, being the premium received. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amount initially recognised less cumulative amortisation recognised in the consolidated statement of profit or loss and other comprehensive income and an ECL provision.

Undrawn loan commitments and letters of credits are commitments under which, over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer. Similar to financial guarantee contracts, these contracts are in the scope of the ECL requirements.

The Group occasionally issues loan commitments at below market interest rates. Such commitments are initially recognised at fair value and subsequently measured at the higher of the amount of the ECL allowance and the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

Performance guarantees

Performance guarantees are contracts that provide compensation if another party fails to perform a contractual obligation. Performance guarantees are assessed together with other financial instruments and thus fall within the scope of IFRS 9.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, current accounts with the CBAR and the Central Bank of Russia ("CBR"), excluding obligatory reserves, and amounts due from banks and other financial institutions due on demand or within 90 days from the date of origination and that are free from contractual encumbrances.

Leases

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value (i.e., below USD 10,000). Lease payments on short-term leases and leases of low-value assets are recognised as expenses on a straight-line basis over the lease term.

Renegotiated loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions.

(Figures in tables are in thousands of Azerbaijani manats)

3. Summary of significant accounting policies (continued)

Renegotiated loans (continued)

The Group derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes, unless the new loan is deemed to be POCI. When assessing whether or not to derecognise a loan to a customer, the Group considers the following factors amongst others:

- Change in currency of the loan;
- Change in counterparty;
- Whether the modification is such that the instrument would no longer meet the SPPI criterion.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, presented in the consolidated statement of profit or loss and other comprehensive income, to the extent that an impairment loss has not already been recorded.

For modifications not resulting in derecognition, the Group also reassesses whether there has been a significant increase in credit risk or whether the assets should be classified as credit-impaired. Once an asset has been classified as credit-impaired as a result of modification, it will remain in Stage 3 for a minimum 6-month probation period. In order for the restructured loan to be reclassified out of Stage 3, regular payments of more than an insignificant amount of principal or interest must have been made during at least half of the probation period in accordance with the modified payment schedule.

Derecognition of financial assets and liabilities

Write-off

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to credit loss expense. A write-off constitutes a derecognition event.

Property and equipment

Property and equipment are carried at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and any accumulated impairment. Such cost includes the cost of replacing part of equipment when that cost is incurred if the recognition criteria are met.

Office premises of the Group are recorded at a revalued amount subject to revaluation to market value on a regular basis. The frequency of revaluation depends upon the movements in the fair values of the premises being revalued. Increases in the carrying amount arising on revaluation are credited to other comprehensive income unless the increase reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the revaluation gain is recognised in profit or loss to the extent of the amount of the reversal. Decreases that offset previous increases of the same asset are recognised in other comprehensive income and decrease the previously recognised revaluation reserve in equity; all other decreases are charged to profit or loss for the year.

The revaluation reserve for office premises included in equity is reclassified directly to retained earnings on the retirement or disposal of the asset.

Depreciation of an asset begins when it is available for use. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

	Useful life
Office premises	50 years
Furniture, fixtures, vehicles and other fixed assets	4-10 years
Computer and communication equipment	4-10 years
Leasehold improvements	10 years (but not longer than respective lease period)

Costs related to repairs and renewals are charged when incurred and included in other operating expenses, unless they qualify for capitalisation.

(Figures in tables are in thousands of Azerbaijani manats)

3. Summary of significant accounting policies (continued)

Repossessed collateral

In certain circumstances, collateral is repossessed following the foreclosure on loans that are in default. Repossessed collateral is measured at the lower of the carrying amount and net realisable value and reported within "Other assets".

Intangible assets

Intangible assets include banking licenses, software and other licenses, as well as computer software.

Intangible assets acquired separately are measured on initial recognition at cost. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic lives of 1-10 years and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Share capital

Share capital

Ordinary shares are classified as equity. External costs directly attributable to the issue of new shares, other than on a business combination, are shown as a deduction from the proceeds in equity. Any excess of the fair value of consideration received over the par value of shares issued is recognised as retained earnings and other reserves.

Segment reporting

The Group's segmental reporting is based on the following operating segments: Retail banking, Corporate banking and Treasury.

Recognition of income and expenses

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Expenses are recognised when incurred.

Fee and commission income

The Group earns fee and commission income from a diverse range of services it provides to its customers. Fee and commission income include fee and commission received on plastic cards operations, settlement transactions, servicing of contingent liabilities and cash transactions which are recognised as revenue as the services are provided. Fee and commission expense consist of fee and commission paid on plastic card operations, settlement transactions and cash transactions.

Fee and commission income which forms an integral part of the effective interest rate of a financial instrument is recognised as an adjustment to the effective interest rate and recorded in 'interest income'.

Foreign currency translation

The consolidated financial statements are presented in AZN, which is the Bank's functional currency and the presentation currency of the Group.

As at the reporting date, the assets and liabilities of the Group's subsidiaries whose functional currency is different from the presentation currency of the Bank are translated into AZN at the rate of exchange ruling at the reporting date and, their statements of profit or loss and other comprehensive income are translated at the average exchange rates for the year. The exchange rate differences arising on the translation are recognised in other comprehensive income.

The Group used the following official exchange rates at 31 December 2024 and 2023 in the preparation of these consolidated financial statements:

	2024	***2023***
1 US dollar	AZN 1.7000	AZN 1.7000
1 Euro	AZN 1.7724	AZN 1.8766
1 Georgian lari	AZN 0.6091	AZN 0.6326
1 Russian rouble	AZN 0.0163	AZN 0.0188

(Figures in tables are in thousands of Azerbaijani manats)

4. Significant accounting judgments and estimates

In the process of applying the Group's accounting policies, management has made the following judgments and made estimates which have affected the amounts recognised in the consolidated financial statements. The most significant use of judgments and estimates are as follows:

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values (Note 25). Estimation uncertainty in relation to fair values of Russian investment securities is described in Note 2.

Revaluation of premises

The determination of fair value of the Group's premises is based on a number of factors including market conditions, comparable sales, and the condition of the property. Due to the inherent subjectivity involved in estimating fair value, there is a degree of estimation uncertainty in this process. The Group's management has applied their judgment in determining the appropriate assumptions and inputs used in the valuation process, but there is always a risk that actual outcomes may differ from the estimates made. Management continuously monitors market conditions and other factors that may impact the fair value of the premises and updates the valuations as necessary to reflect any changes. Despite these efforts, there remains a degree of estimation uncertainty inherent in the revaluation process that should be considered by users of the consolidated financial statements. More details are provided in Note 11 and Note 25.

Impairment losses on financial assets

The measurement of impairment losses both under IFRS 9 across all categories of financial assets requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. In addition, large-scale business disruptions may give rise to liquidity issues for some entities and consumers. The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgments and estimates include:

- The Group's internal credit grading model, which assigns PDs to the individual grades;
- The Group's criteria for assessing whether there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment;
- The segmentation of financial assets when their ECL is assessed on a collective basis;
- The development of ECL models, including the various formulae and the choice of inputs;
- The determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs;
- The selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

More details are provided in Notes 10 and 24.

Leases – estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (for example, when the Group does not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the Group's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the Group's credit rating).

Taxation

Tax legislation in Azerbaijan is subject to varying interpretations, and changes can occur frequently. Management believes that as at 31 December 2024 and 2023 its interpretation of the relevant legislation is appropriate and that the Bank's tax position will be sustained.

(Figures in tables are in thousands of Azerbaijani manats)

5. Segment reporting

The Group discloses information to enable users of its consolidated financial statements to evaluate the nature and financial effects of the business activities in which it engages and the economic environments in which it operates. This matter is regulated by IFRS 8 *Operating Segments* and other standards that require special disclosures in the form of segmental reporting.

Information reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance focuses on types of services delivered or provided. The Group's reportable segments under IFRS 8 are therefore as follows:

- Corporate banking − direct debit facilities, current accounts, deposits, overdrafts, loan and other credit facilities, foreign currency and derivative products;
- Retail banking − private banking services, private customer current accounts, savings, deposits, investment savings products, custody, credit and debit cards, consumer loans and mortgages;
- Treasury − interbank lending and borrowings, securities trading swaps, foreign exchange services, issuance of bonds and promissory notes and other treasury functions.

(Figures in tables are in thousands of Azerbaijani manats)

Revenue includes operating income excluding interest expense, fee and commission expense and provision for impairment losses.

(Figures in tables are in thousands of Azerbaijani manats)

6. Cash and cash equivalents

As at 31 December, cash and cash equivalents comprise:

	2024	*2023*
Cash on hand	427,326	444,220
Cash in transit	–	6,764
Current accounts with central banks	601,925	834,738
Correspondent accounts and time deposits with original maturity up to 90 days with credit institutions	1,144,434	1,531,077
Cash and cash equivalents	**2,173,685**	**2,816,799**

As at 31 December 2024, the Group had a concentration of correspondent accounts and time deposits with original maturity up to 90 days with credit institutions represented by AZN 979,834 thousand (31 December 2023: AZN 1,466,862 thousand) in ten (31 December 2023: ten) largest banks.

Cash equivalents in amount of AZN 1,682,936 thousand are allocated to Stage 1 and cash equivalents in amount of AZN 63,423 thousand are allocated to Stage 2 (2023: 2,312,246 thousand are allocated to Stage 1 and AZN 53,569 thousand are allocated to Stage 2). The ECL relating to cash equivalents of the Group rounds to zero in both years.

7. Mandatory cash balances with central banks

As at 31 December 2024, according to the CBAR decision made on 20 November 2023, credit institutions are required to maintain obligatory reserve with the CBAR according to the following differentiation criteria:

- Whether the deposits of legal entities in local currency are less than AZN 1,000,000 thousand (AZN 750,000 thousand for foreign currency);
- Whether the proportion of deposits from related parties to total deposits is below than 20%;
- Whether the proportion of connected deposits to total deposits is below than 20%.

Since the Bank`s average deposits from legal entities and individuals both in local and foreign currencies exceed AZN 1,000,000 thousand and the proportion of connected deposits exceeds 20%, the applicable mandatory reserve rate was 20% for the Bank’s deposits as of 31 December 2024 (31 December 2023: 20%).

8. Due from banks and other financial institutions

As at 31 December, due from banks and other financial institutions comprise:

	2024	*2023*
Loans to credit institutions	34,053	47,958
Time deposits with resident banks	20,730	16,151
Blocked accounts with non-resident banks	1,158	2,382
Time deposits with the CBAR	–	1,508,289
Less: allowance for expected credit losses	(2,832)	(3,495)
Due from banks and other financial institutions	**53,109**	**1,571,285**

As at 31 December 2023, the Group had one time deposit with the CBAR, which was withdrawn by the Group in 2024.

The movements in allowances for impairment under IFRS 9 of amounts due from banks at amortised cost during the year ended 31 December 2024 and 31 December 2023 were insignificant.

(Figures in tables are in thousands of Azerbaijani manats)

9. Investment securities

As at 31 December investment securities comprise:

	2024	*2023*
Debt securities at amortised cost		
Government bonds	1,507,709	382,110
Notes issued by the CBAR	–	76,986
Corporate bonds	1,203,934	442,088
Corporate bonds pledged under repurchase agreements	11,614	–
Government bonds pledged under repurchase agreements	–	19,210
Less: allowance for impairment losses	(3,407)	(2,161)
	2,719,850	**918,233**
Debt securities at FVOCI		
Government bonds	341,281	787,073
Corporate bonds	150,208	203,056
Government bonds pledged under repurchase agreements	9,912	40,804
	501,401	**1,030,933**
Debt securities at FVPL		
Corporate bonds	17,032	3,415
	17,032	**3,415**
Equity securities at FVOCI		
Corporate shares	121,365	99,688
	121,365	**99,688**
Investment securities	**3,359,648**	**2,052,269**

As at 31 December 2024, the Government bonds mainly comprise bonds issued by the Ministry of Finance of the Republic of Azerbaijan in the amount of AZN 1,540,805 thousand (as at 31 December 2023: AZN 1,203,373 thousand) and US Treasury bills in the amount of AZN 239,468 thousand (as at 31 December 2023: AZN 11,368 thousand).

As at 31 December 2024 the corporate bonds comprise bonds issued in Azerbaijan, OECD countries, and other non-OECD countries in the amounts of AZN 1,319,168 thousand, AZN 46,587 thousand and AZN 17,033 thousand, respectively (as at 31 December 2023: AZN 570,138 thousand in Azerbaijan, AZN 43,763 thousand in OECD countries, and AZN 34,948 thousand in non-OECD countries, respectively).

As at 31 December 2024, the Corporate shares comprise class 'B' common equity shares of Mastercard Incorporated and class 'C' common equity shares of Visa Incorporated at fair market values of AZN 33,764 thousand and AZN 86,864 thousand, respectively, as well as ordinary shares of Azerbaijan Credit Bureau, Baku Stock Exchange and Swift at fair market values of AZN 250 thousand, AZN 240 thousand and 247 AZN thousand respectively (as at 31 December 2023: class 'B' common equity shares of Mastercard Incorporated and class 'C' common equity shares of Visa Incorporated at fair market values of AZN 27,400 thousand and AZN 71,798 thousand, respectively, as well as ordinary shares of Azerbaijan Credit Bureau and Baku Stock Exchange at fair market values of AZN 250 thousand and AZN 240 thousand, respectively).

Debt securities in amount of AZN 3,235,629 thousand (31 December 2023: AZN 1,924,483 thousand), or 99.8% (31 December 2023: 99%) of the total debt securities balance of the Group, are allocated to Stage 1. The remaining balance of debt securities in amount of AZN 6,061 thousand is allocated to Stage 2 (31 December 2023: AZN 27,852 thousand to Stage 2 and AZN 2,407 thousand to Stage 3). ECL in amount of AZN 4,329 thousand (31 December 2023: 4,195) is allocated to Stage 1 and AZN 1,219 thousand is allocated to Stage 2 (31 December 2023: AZN 4,765 thousand to Stage 2 and AZN 1,786 thousand to Stage 3). These are mainly debt securities carried at FVOCI which were issued by entities operating in the Russian Federation and held by "IBA–Moscow" LLC.

An analysis of changes in the gross carrying values and associated ECLs in relation to debt securities at FVOCI during the year ended 31 December 2024 is as follows:

Debt securities at FVOCI	***Stage 1***	***Stage 2***	***Stage 3***	***Total***
Gross carrying value as at 1 January 2024	**1,000,674**	**27,852**	**2,407**	**1,030,933**

(Figures in tables are in thousands of Azerbaijani manats)

10. Loans to customers (continued)

Modified and restructured loans

The Group derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

The table below includes Stage 2 and Stage 3 assets that were modified during the period, with the related modification loss suffered by the Group.

	2024	*2023*
Loans modified during the period		
Amortised cost before modification	3,658	3,367
Net modification loss	1,250	141

(Figures in tables are in thousands of Azerbaijani manats)

11. Property, equipment and intangible assets

The movements in property, equipment and intangible assets were as follows:

Historical cost / revalued amount	*Office premises*	*Leasehold improvements*	*Furniture, fixtures, vehicles, and other fixed assets*	*Computers and communication equipment*	*Total property and equipment*	*Intangible assets*	*Total property, equipment and intangible assets*

As at 31 December 2024 and 2023, fully depreciated assets in use were included in property, equipment and intangible assets in the amount of AZN 100,838 thousand and AZN 97,174 thousand, respectively.

As at 31 December 2024 and 2023 premises owned by the Group were recognised at fair value. The valuation was carried out by an independent firm of appraisers, who hold relevant professional qualifications and who have experience in the valuation of assets in similar locations and in a similar category. The fair value is determined by reference to market-based evidence. The sales comparison method (comparative approach) was used by the independent appraisers engaged by the Group for the valuation of the premises. As at 31 December 2024 and 2023, the fair value of the Group's premises was categorised within Level 3 within the fair value hierarchy.

The following table summarises the sensitivity of the fair value measurement of the Group's premises categorised within Level 3 of the fair value hierarchy to changes in unobservable inputs as at 31 December 2024.

Input	***Description of input***	***Description of sensitivity***
Trade discount (difference between bid and ask price)	Local realtors were interviewed, and the resulting discount interval on bargain was found to be between 5% and 8% (31 December 2023: 10% and 15%)	The corrective adjustment on bargain may vary from 5% to 8% (31 December 2023: from 10% to 15%). An increase in the trade discount input might lead to a decrease in the fair value of the Group's premises

(Figures in tables are in thousands of Azerbaijani manats)

12. Other assets and liabilities

As at 31 December, other assets comprise:

	2024	*2023*
Other financial assets		
Funds in settlement	96,270	96,269
Receivable from Azerbaijan Deposit Insurance Fund ("the ADIF")	–	49,615
Pledged funds with non-resident organisations	–	13,524
Amounts blocked in clearing house	49,250	11,312
Accrued commission and receivables from settlement of off-balance sheet commitments	8,645	9,367
Allowance for impairment losses of other assets	(22,800)	(10,464)
	131,365	**169,623**
Other non-financial assets		
Right-of-use assets	18,947	18,567
Prepayments	15,296	15,034
Deferred expenses	7,271	5,688
Repossessed collateral	3,664	3,782
	45,178	**43,071**
Other assets	**176,543**	**212,694**

In 2023, the Bank was appointed as the agent bank by the ADIF to settle the claims of individuals who had deposits in the "Muganbank" OJSC, following the termination of its license on 27 November 2023. As a result, the Group has reimbursed ~ AZN 75,930 thousand of the deposits of the "Muganbank" OJSC customers out of which AZN 26,315 thousand has been received from the ADIF and the remaining AZN 49,615 thousand has been recognized as receivable from the ADIF as of 31 December 2023. In 2024, AZN 49,615 thousand has been received from the ADIF, leaving nil balance as of 31 December 2024.

In 2024, IBA Moscow LLC entered into a currency swap transaction in amount of USD 24,357 thousand (AZN 41,406 thousand) with a foreign counterparty bank. The transaction is currently blocked and under review by the clearing bank, and as at 31 December 2024, the associated funds remain pending clearance. The related expected credit loss (ECL) provision was recorded at AZN 13,535 thousand as at 31 December 2024. Management is taking necessary actions to facilitate the clearance of these funds.

Other liabilities as at 31 December comprise:

	2024	*2023*
Other financial liabilities		
Funds in settlement	84,521	88,738
Lease liability	20,676	19,888
Credit loss allowance for credit-related commitments	14,694	12,734
Dividends payable to shareholders	59	58
	119,950	**121,418**
Other non-financial liabilities		
Payables to employees	45,829	40,005
Payables to local budget	13,618	11,774
Taxes other than income tax	12,846	10,120
Obligations for legal claims	6,700	6,700
Deferred revenue on plastic cards	4,961	6,109
Provision for other contingencies and commitments	3,146	1,971
	87,100	**76,679**
Other liabilities	**207,050**	**198,097**

(Figures in tables are in thousands of Azerbaijani manats)

12. Other assets and liabilities (continued)

The table below shows the fair values of derivative financial instruments, recorded as assets or liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying asset or liability, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding at the year end and are not indicative of the credit risk.

	31 December 2024			*31 December 2023*		
	Notional amount	***Fair value***		***Notional amount***	***Fair value***	
		Asset	***Liability***		***Asset***	***Liability***
Foreign exchange contracts						
Forward – foreign	62,920	24	–	–	–	–
Swaps – domestic	–	–	–	121,632	46	–
Derivative assets		**24**	**–**		**46**	**–**

As at 31 December, the loss allowance for credit related commitments and provision for other contingencies and commitments comprise the following:

	2024	*2023*
Credit-related commitments	14,694	12,734
Performance guarantees	3,146	1,971
Credit loss allowance for credit-related commitments and provision for other contingencies and commitments	**17,840**	**14,705**

13. Due to banks and other financial institutions

As at 31 December, due to banks and other financial institutions comprise:

	2024	*2023*
Correspondent accounts of non-resident banks	279,244	59,138
Correspondent accounts of resident banks	96,086	96,277
Time deposits of non-resident banks and other financial institutions	20,369	-
Payables under repurchase agreements	11,635	45,062
Time deposits of resident banks and other financial institutions	6,503	376,823
Due to banks and other financial institutions	**413,837**	**577,300**

As at 31 December 2024, debt securities at amortised cost in the amount of AZN 11,614 thousand are pledged as collateral for repurchase agreements with banks and other financial institutions (31 December 2023: debt securities at amortised cost in the amount of AZN 19,210 and debt securities at FVOCI in the amount of AZN 26,080).

14. Customer accounts

As at 31 December, the amounts due to customers comprise the following:

	2024	*2023*
Legal entities		
- Current/settlement accounts	6,167,053	6,506,142
- Term deposits	1,524,241	1,122,331
- Restricted customer deposits	65,776	407,307
Total legal entities	**7,757,070**	**8,035,780**
Individuals		
- Current/settlement accounts	1,713,829	1,484,988
- Term deposits	1,308,175	741,039
Total individuals	**3,022,004**	**2,226,027**
Customer accounts	**10,779,074**	**10,261,807**

As at 31 December 2024, customer accounts included balances with the ten (31 December 2023: ten) largest customers in the amount of AZN 3,091,660 thousand or 29% of the total customer accounts portfolio (31 December 2023: AZN 4,520,753 thousand or 44% of the total customer accounts portfolio).

As at 31 December 2024, customer accounts included balances blocked with the Group against letters of credit and letter of guarantees in the amount of AZN 65,776 thousand (as at 31 December 2023: AZN 407,307 thousand).

(Figures in tables are in thousands of Azerbaijani manats)

14. Customer accounts (continued)

An analysis of customer accounts by economic sector as at 31 December is as follows:

	2024	*2023*
Analysis by economic sector / customer type		
Government related entities	5,495,088	6,391,112
Individuals	3,022,004	2,226,027
Trade and service	1,136,549	886,559
Transportation and communication	253,229	145,573
Construction	212,032	194,569
Energy	176,211	98,284
Manufacturing	87,143	139,303
Public organizations	65,595	60,620
Other	331,223	119,760
Customer accounts	**10,779,074**	**10,261,807**

15. Other borrowed funds

As at 31 December, other borrowed funds comprise:

	2024	*2023*
National Fund for Support of Entrepreneurship and the Mortgage Fund (the Republic of Azerbaijan)	236,604	214,519
Payables under repurchase agreements	8,196	14,534
Other borrowed funds	**244,800**	**229,053**

As at 31 December 2024, debt securities at FVOCI in total amount of AZN 9,912 thousand (31 December 2023: 14,724 thousand) are pledged as collateral for repurchase agreements with legal entities other than banks and other financial institutions.

16. Debt securities issued

As at 31 December, debt securities issued comprise:

	2024	*2023*
Local bonds	100,368	12,210
Eurobonds	–	484,758
Debt securities issued	**100,368**	**496,968**

As at 31 December 2023, the Group had one class of Eurobonds issued in September 2017 with coupon rate of 3.5% p.a and Local bonds issued in June 2022 with coupon rate of 6% p.a, which matured in September 2024 and June 2024, respectively, and have been fully repaid by the Group.

In December 2024, the Group issued local bonds with a total face value of AZN 100,000 thousand and coupon rate of 11% p.a maturing in December 2026. The issuance was conducted through public placement on Baku Stock Exchange. The Group is not obliged to comply with any financial or non-financial covenants in relation to these bonds.

(Figures in tables are in thousands of Azerbaijani manats)

17. Taxation

Deferred tax assets and liabilities as at 31 December comprise:

	2024	*Deferred tax recognised in profit or loss*	*Deferred tax recognised in other comprehensive income*	*2023*	*2022*
Deferred tax assets/(liabilities) in relation to:					
Due from banks and loans to customers	**(43,219)**	(8,127)	–	**(35,092)**	**(18,174)**
Investment securities	**(20,878)**	(562)	(3,345)	**(16,971)**	**(7,395)**
Property, equipment and intangible assets	**(8,392)**	(2,276)	(1,056)	**(5,060)**	**(783)**
Debt securities issued	–	2,012	–	**(2,012)**	**(4,734)**
Other assets	**1,589**	679	–	**910**	**2,035**
Other liabilities	**14,168**	(518)	–	**14,686**	**4,356**
Others	**(7,668)**	1,430	–	**(9,098)**	**(7,408)**
Unrecognised deferred tax assets	**(1,459)**	464	–	**(1,923)**	**(2,298)**
Net deferred tax liability	**(65,859)**	**(6,898)**	**(4,401)**	**(54,560)**	**(34,401)**

The effective income tax rate differs from the statutory income tax rates. A reconciliation of the income tax expense based on statutory rates with actual is as follows:

	2024	*2023*
Profit before tax	**462,975**	**484,162**
Tax expense at the statutory tax rate (20%)	**(92,595)**	**(96,832)**
Tax effect of permanent differences	(1,290)	(1,702)
Withholding tax on subsidiary dividend	(3,928)	(807)
Other	(5,083)	(3,933)
Income tax expense	**(102,896)**	**(103,274)**
Current income tax expense	(95,998)	(91,034)
Deferred tax (charge) / benefit recognised in profit or loss	(6,898)	(12,240)
Income tax expense	**(102,896)**	**(103,274)**

Deferred income tax assets/(liabilities)	*2024*	*2023*
Deferred tax assets at 1 January	**525**	**3,393**
Deferred tax liabilities at 1 January	**(55,085)**	**(37,794)**
Change in deferred income tax balances recognised in profit or loss	(6,898)	(12,240)
Change in deferred income tax recognised in other comprehensive income	(4,401)	(7,919)
Deferred income tax assets at 31 December	**3,129**	**525**
Deferred income tax liabilities at 31 December	**(68,988)**	**(55,085)**
Net deferred income tax liability	**(65,859)**	**(54,560)**

At 31 December 2024, the aggregate amount of temporary differences associated with investments in subsidiaries for which deferred tax liability has not been recognised was AZN 18,511 thousand (31 December 2023: AZN 19,354 thousand).

(Figures in tables are in thousands of Azerbaijani manats)

18. Equity

The Group's share capital as at 31 December comprises the following shares:

Ordinary shares	***Number of paid-in shares (in thousands)***	***Share capital***
As at 1 January 2023	4,539,437	1,225,648
As at 31 December 2023	4,539,437	1,225,648
Issue of shares	206,012	55,623
As at 31 December 2024	4,745,449	1,281,271

All ordinary shares have a nominal value of AZN 0.27 per share as at 31 December 2024 and 2023 and rank equally. Each share carries one vote.

In September 2024, the Bank issued additional 206,012 ordinary shares in the amount of AZN 56,535 thousand, through public placement on Baku Stock Exchange. Respective share premium in the amount of AZN 912 thousand was recognized within Retained earnings and other reserves.

On 27 May 2024, in accordance with a resolution of the Annual General Meeting of Shareholders, the Group declared a dividend of AZN 185,000 thousand (2023: AZN 156,600 thousand). The dividend per share is AZN 0.04 (2023: AZN 0.04).

Dividend payable movement comprises:

	2024	***2023***
As at 1 January	**58**	**287**
Dividend declared	185,000	156,600
Dividend off-set with Receivables from CJSC Agrarkredit (Note 19)	(403)	(324)
Dividend paid	(184,596)	(156,505)
As at 31 December	**59**	**58**

Revaluation reserve for premises

The revaluation reserve for property and equipment is used to record increases in the fair value of premises and decreases to the extent that such a decrease relates to an increase on the same asset previously recognised in equity through other comprehensive income.

Retained earnings and other reserves

Retained earnings and other reserves include results from transactions with shareholders acting in their capacity as shareholders. In turbulent economic conditions due to a continued decline in the quality of the Group's assets, an increase in problematic loans and a decline in the liquidity position of the Group, the Government of Azerbaijan took a number of steps to strengthen the Group's capital position and the quality of its assets. As part of these measures, certain of the problematic assets of the Group were transferred in several tranches during 2015-2019 to CJSC Agrarkredit. The transfer of the problematic assets occurred at an agreed amount at the time of transfer. Since CJSC Agrarkredit is also ultimately controlled by the Ministry of Finance any amounts received from CJSC Agrarkredit in excess of the net carrying amounts of transferred assets have been recognised as retained earnings and other reserves of the Group.

Earnings per share

The gain and weighted average number of shares used in the calculation of the basic and diluted loss per share are as follows:

	2024	***2023***
Net profit for the year attributable to shareholders of the Group	360,079	380,888
Weighted average number of ordinary shares in issue	4,590,940	4,539,437
Earnings per share − basic and diluted (AZN)	**0.08**	**0.08**

The Group has no dilutive potential ordinary shares; therefore, the diluted earnings per share are equal to basic earnings per share.

(Figures in tables are in thousands of Azerbaijani manats)

19. Balances with CJSC "Agrarkredit"

During 2015-2019, the Government of Azerbaijan was taking a number of steps to strengthen the Group's capital position and the quality of its assets. As a result of restructuring of Group's assets, the Group received promissory notes of CJSC "Agrarkredit" in exchange of transfer of problematic assets. The value of promissory notes received from CJSC "Agrarkredit" in 2017 exceeded the gross nominal value of corresponding problematic assets transferred, for which the Payables to CJSC "Agrarkredit" was recognised in the consolidated statement of financial position and held as security against defaults in certain guarantees and letters of credit (Note 20).

During 2024, the Group offset full amount of dividends payable to CJSC Agrarkredit in the amount of AZN 403 thousand (31 December 2023: 324 thousand) resulting from the dividend declaration of 27 May 2024, against promissory notes receivable from CJSC Agrarkredit

At 31 December 2024, the gross balance of Receivables from CJSC "Agrarkredit" and Payables to CJSC "Agrarkredit" amounted to AZN 230,136 thousand and AZN 54,304 thousand, respectively (31 December 2023: AZN 296,462 thousand and AZN 61,950 thousand, respectively). As at 31 December 2024, the ECL relating to Receivable from CJSC "Agrarkredit" of the Group is AZN 1,204 thousand (31 December 2023: AZN 1,560 thousand).

20. Commitments and contingencies

Operating environment

The disruption of the global supply chains, conflict between the Russian Federation and Ukraine, as well as rising consumer demand for goods lead to significant inflationary pressures to the global economy in 2023−2024, including soaring commodity prices. The effect on economies in which the Group operates is presented as follows.

The Republic of Azerbaijan

General overview

The Group conducts most of its operations in the Republic of Azerbaijan.

Azerbaijan's economy remains particularly sensitive to fluctuations in hydrocarbon prices. However, in recent years, the Azerbaijani Government has made significant strides in implementing economic and social reforms aimed at diversifying the economy to reduce dependence on the hydrocarbon sector, which continues to represent a substantial portion of the country's GDP.

Economic performance

In 2024, Azerbaijan's GDP grew by 4.6%, a notable acceleration from 1.1% growth in 2023. The oil and gas sector rose slightly by 0.3%, while the non-oil sector experienced a stronger growth rate of 6.2%. This progress is primarily driven by government investments in the non-oil sector, improvements in the business environment, and rising consumer spending. The overall economic performance continues to reflect the government's ongoing efforts to diversify the economy.
The high average hydrocarbon prices during 2023 and 2024 added additional stability to the local currency.

During 2023 and 2024, the Azerbaijani manat demonstrated resilience against major currency fluctuations, partly due to high hydrocarbon prices and effective monetary and fiscal policies. Additionally, Azerbaijan's strategic foreign exchange reserves grew by approximately 7% during 2024, exceeding 70 billion USD by the end of the year.

Looking ahead, both local and international organizations predict steady growth for Azerbaijan's economy. The UN forecasts a 3% GDP growth rate for Azerbaijan in 2025, while the Ministry of Economy of Azerbaijan predicts GDP growth of 3.5% in 2025 and 2.8% in 2026. Additionally, the rising global demand for Azerbaijani natural gas is expected to continue supporting GDP growth in 2025 and beyond.

Monetary policy

The Central Bank of Azerbaijan (CBAR) has continued to actively manage its monetary policy to ensure financial stability. In 2024, the CBAR reduced the refinancing rate to 7,25% from 8.25%, in response to the moderation in inflation rates. This adjustment aims to support economic growth while maintaining control over inflation, which decreased from 8.8% in 2023 to around 2.2% in 2024.

The Central Bank of Azerbaijan has also adjusted mandatory reserve ratios in response to evolving liquidity conditions in the banking sector, aiming to ensure financial stability in a complex economic landscape.

Throughout 2024 and 2023, the Azerbaijani manat remained stable at 1.7000 AZN to 1 USD.

(Figures in tables are in thousands of Azerbaijani manats)

20. Commitments and contingencies (continued)

Operating environment (continued)

Credit Rating Assessment

During 2024 Standard & Poor's credit rating for Azerbaijan stands at “BB+” with stable outlook. Moody's credit rating for Azerbaijan was last set at “Ba1” with positive outlook. Fitch Ratings upgraded Azerbaijan's Long-Term Foreign-Currency Issuer Default Rating (IDR) to "BBB-" from "BB+", reflecting an improved credit profile. This assessment reflects the effectiveness of economic policy in recent years, strong fiscal performance and high hydrocarbon prices.

Management response

The Group’s management is monitoring economic developments in the current environment and taking precautionary measures, it considers necessary in order to support the sustainability and development of the Group’s business in the foreseeable future. The Group considers its current liquidity position to be sufficient for its sustainable functioning. The Group monitors its liquidity position on a daily basis.

The Russian Federation

On 24 February 2022 a military conflict emerged between Russia and Ukraine. Following this, a number of Western and other countries began applying sanctions to Russian economy. The sanctions were wide−ranging, targeting banks, businesses, monetary exchanges, bank transfers, exports, and imports. In 2024, geopolitical instability continued to prevail in the Russian market, which was driven by the introduction of new restrictions and sanctions by the Western countries.

Despite the severity of sanctions, the decline in Russian economy has so far been slower than initially expected, which was backed by the high hydrocarbon exports, increased government spending and robust banking system. In 2024, GDP grew by 4%, which was slightly better than forecasted 3.9%.

Current inflationary pressures remain high, with average inflation reaching 9.5% by the end of the year, which was mainly fueled by the increased government spending on the military conflict. In order to control the inflation rate, the CBR pursued tightening monetary policy through gradual interest rates hikes made during the year. As at 31 December 2024, key rate stood at 21% and average key rate for the year approximated 18% (31 December 2023: 16% and 10%, respectively).

Starting from mid-June 2024, the national currency of Russia – rouble, started to devaluate against US dollar and other currencies, including AZN. The official exchange rate of rouble to AZN was 0.0163 AZN for 1 rouble as at 31 December 2024 (31 December 2023: 0.0188 AZN for 1 rouble). This resulted in translation loss of AZN 26,934 thousand recognised in other comprehensive income upon consolidation of “IBA-Moscow LLC during 2024 (31 December 2023: AZN 35,425 thousand).

The Group has a fully owned subsidiary bank operating in Russia – “IBA Moscow” LLC. As of 31 December 2024, “IBA Moscow” LLC had total assets in the amount of AZN 642,713 thousand (31 December 2023: AZN 437,609 thousand) and total liabilities in the amount of AZN 484,635 thousand (31 December 2023: AZN 279,092 thousand), prior to intercompany eliminations, and the Bank had a correspondent account in the amount of AZN 32,717 thousand placed in “IBA Moscow” LLC (31 December 2023: AZN 19,083 thousand) and, in turn, “IBA Moscow” LLC had a correspondent account in the amount of AZN 232,345 thousand (31 December 2023: AZN 37,222 thousand) placed in the Bank. Both as at reporting date and at the date of issuance of these financial statements there were no restrictions preventing the Bank from using these correspondent accounts and deposits, including its withdrawal and conversion.

The sanctions imposed by the US and the EU on the largest companies of Russia, as well as the impact of the conflict on economic and operational activities resulted in significant disruption in trading activity on Moscow Stock Exchange during prior year. However, during 2024 the trading activity has been considerably higher than in 2023. As the conflict is still waging, it is impossible to reliably assess the impact this may have on the Group’s business as there is uncertainty over the magnitude of the impact on the economy in general.

(Figures in tables are in thousands of Azerbaijani manats)

20. Commitments and contingencies (continued)

Operating environment (continued)

The Group incorporated its best estimates of the effects related to the conflict to its expected credit loss and fair value assessments of investment securities as at 31 December 2024.

Legal

In the ordinary course of business, the Group is subject to legal actions and complaints. Management believes that the ultimate liability, if any, arising from such actions or complaints will not have a material adverse effect on the financial condition or the results of future operations of the Group.

Taxation

Tax legislation in Azerbaijan is subject to varying interpretations, and changes can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Bank may be challenged by the relevant authorities. Recent events within the Republic of Azerbaijan suggest that the tax authorities may be taking a more assertive position in their interpretation and application of this legislation and assessments. It is therefore possible that transactions and activities of the Bank that have not been challenged in the past may be challenged at any time in the future. As a result, significant additional taxes, penalties and interest may be assessed by the relevant authorities. Fiscal periods remain open and subject to review by the tax authorities for a period of three calendar years immediately preceding the year in which the decision to conduct a tax review is taken. The last tax inspection covered the year ended 31 December 2018.

Management's interpretation of the relevant legislation as at 31 December 2024 is appropriate and the Bank's tax, currency and customs positions will be sustained.

Insurance

The Group has not currently obtained insurance coverage related to liabilities arising from errors or omissions.

Compliance with the CBAR ratios

The CBAR requires banks to maintain certain prudential ratios computed based on statutory financial statements. As at 31 December 2024 and 2023, the Bank was in compliance with these ratios.

Financial commitments and contingencies

The Group provides guarantees and letters of credit to customers with the primary purpose of ensuring that funds are available to customers as required. Guarantees and standby letters of credit represent irrevocable assurances that the Group will make payments in the event that a customer cannot meet its obligations to third parties. Documentary and commercial letters of credit, which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralized by the underlying shipments of goods to which they relate, or cash deposits and, therefore, carry less risk than direct lending.

Financial commitments and contingencies as at 31 December comprise:

	2024	***2023***
Guarantees	898,291	837,322
Letters of credit	52,996	493,786
Undrawn loan commitments	557,057	552,632
Less: allowance for impairment losses	(17,840)	(14,705)
Financial commitments and contingencies	**1,490,504**	**1,869,035**
Cash held as security against guarantees and letters of credit	(63,829)	(409,687)
Cash received from CJSC Agrarkredit held as security against guarantees and letters of credit	(54,304)	(61,950)

As at 31 December 2024, promissory notes in the amount of AZN 54,304 thousand were pledged by CJSC Agrarkredit to the Group in case certain issued letters of credit or guarantees are defaulted on (31 December 2023: AZN 61,950 thousand).

(Figures in tables are in thousands of Azerbaijani manats)

Movements without impact on (Provision)/reversal of provision for credit related commitments and other impairment in profit or loss				
Payments for letter of financial guarantee	–	–	–	**–**
As at 31 December 2023	**(6,227)**	**(27)**	**–**	**(6,254)**

(Figures in tables are in thousands of Azerbaijani manats)

20. Commitments and contingencies (continued)

Financial commitments and contingencies (continued)

Letters of credit	*Stage 1*	*Stage 2*	*Stage 3*	*Total*
ECL as at 1 January 2023	**(39)**	**–**	**–**	**(39)**
New exposures originated or purchased	(344)	–	–	**(344)**
Exposures derecognised or matured (excluding write-offs)	30	–	–	**30**
Net remeasurement of ECL	9	–	–	**9**
As at 31 December 2023	**(344)**	**–**	**–**	**(344)**

Undrawn commitments	*Stage 1*	*Stage 2*	*Stage 3*	*Total*
ECL as at 1 January 2023	**(6,468)**	**(190)**	**(2,625)**	**(9,283)**
New exposures originated or purchased	(3,158)	–	–	**(3,158)**
Exposures derecognised or matured (excluding write-offs)	4,486	265	2,053	**6,804**
Transfer to 12-month ECL	(250)	57	193	**–**
Transfer to lifetime ECL not credit-impaired	12	(24)	12	**–**
Transfer to lifetime ECL credit-impaired	11	(11)	–	**–**
Net remeasurement of ECL	199	(231)	(467)	**(499)**
As at 31 December 2023	**(5,168)**	**(134)**	**(834)**	**(6,136)**

The movements in gross amounts of credit-related commitments that most significantly contributed to changes in respective ECLs predominantly consist of exposures derecognised or matured.

An analysis of changes in the provision for performance guarantees and legal claims is provided in Note 21.

21. Credit loss expense and other impairment

The table below shows the ECL charges on financial instruments for the year ended 31 December 2024:

	Note	*Stage 1*	*Stage 2*	*Stage 3*	*Total*
Loans and receivables at amortised cost	10	(20,057)	(4,702)	(34,700)	**(59,459)**
Due from banks and other financial institutions	8	569	94	–	**663**
Debt securities at amortised cost	9	(1,246)	–	–	**(1,246)**
Debt securities at FVOCI	9	1,107	3,296	1,550	**5,953**
Receivables from CJSC Agrarkredit		356	–	–	**356**
Credit loss expense on interest bearing financial assets		**(19,271)**	**(1,312)**	**(33,150)**	**(53,733)**
Financial guarantees	20	(3,110)	27	(99)	**(3,182)**
Letters of credit	20	293	–	–	**293**
Undrawn loan commitments	20	208	(105)	826	**929**
Credit-related commitments		**(2,609)**	**(78)**	**727**	**(1,960)**
Other financial assets	12	(562)	–	(11,774)	**(12,336)**
Provision charge for credit losses on credit-related commitments and other financial assets		**(3,171)**	**(78)**	**(11,047)**	**(14,296)**
Credit loss expense		**(22,442)**	**(1,390)**	**(44,197)**	**(68,029)**

(Figures in tables are in thousands of Azerbaijani manats)

21. Credit loss expense and other impairment (continued)

The table below shows the ECL charges on financial instruments for the year ended 31 December 2023:

	Note	*Stage 1*	*Stage 2*	*Stage 3*	*Total*
Loans and receivables at amortised cost	10	(14,976)	(824)	(6,730)	**(22,530)**
Due from banks and other financial institutions	8	146	(93)	–	**53**
Debt securities at amortised cost	9	(1,570)	–	–	**(1,570)**
Debt securities at FVOCI	9	2,781	1,379	11,614	**15,774**
Receivables from CJSC Agrarkredit		425	–	–	**425**
Credit loss expense on interest bearing financial assets		**(13,194)**	**462**	**4,884**	**(7,848)**
Financial guarantees	20	3,193	(27)	799	**3,965**
Letters of credit	20	(305)	–	–	**(305)**
Undrawn loan commitments	20	1,300	56	1,791	**3,147**
Credit-related commitments		**4,188**	**29**	**2,590**	**6,807**
Other financial assets	12	1,062	–	(1,737)	**(675)**
Reversal of provision for credit losses on credit-related commitments and other financial assets		**5,250**	**29**	**853**	**6,132**
Credit loss expense		**(7,944)**	**491**	**5,737**	**(1,716)**

Other impairment reversal affected the balances as follows:

	Performance guarantees	*Total*
1 January 2023	**(1,838)**	**(1,838)**
Charge	(133)	**(133)**
31 December 2023	**(1,971)**	**(1,971)**
Charge	(1,175)	(1,175)
31 December 2024	**(3,146)**	**(3,146)**

Provisions for ECL for credit-related commitments and provision on legal claims and performance guarantees are recorded within other non-financial liabilities (Note 12).

22. Fee and commission income and expense

Fee and commission income and expense for the years comprise:

	2024	*2023*
Plastic cards operations	148,147	115,557
Settlement transactions	35,971	21,377
Servicing guarantees and letters of credit	13,218	11,674
Cash transactions	7,350	5,962
Others	11,053	5,758
Fee and commission income	**215,739**	**160,328**
Plastic cards operations	(120,917)	(72,797)
Settlement transactions	(10,270)	(6,447)
Cash transactions	(3,641)	(7,039)
Others	(14,117)	(5,606)
Fee and commission expense	**(148,945)**	**(91,889)**
Net fee and commission income	**66,794**	**68,439**

(Figures in tables are in thousands of Azerbaijani manats)

22. Fee and commission income and expense (continued)

Disaggregated revenue information for the years is as follows:

	Corporate		*Retail*		*Treasury*		*Total*	
	2024	*2023*	*2024*	*2023*	*2024*	*2023*	*2024*	*2023*
Plastic cards operations	48,663	41,683	99,484	73,874	–	–	148,147	115,557
Settlement transactions	17,188	14,670	4,822	3,856	13,961	2,851	35,971	21,377

Cash transactions	4,346	4,249	2,594	1,478	410	235	7,350	5,962
Others	1,861	2,166	8,699	3,225	493	367	11,053	5,758
Fee and commission income	**85,276**	**73,553**	**115,599**	**82,433**	**14,864**	**4,342**	**215,739**	**160,328**

Geographical concentration of the Group's revenue for the years is as follows:

	The Republic of Azerbaijan		*CIS and other non-OECD countries*		*Total*	
	2024	*2023*	*2024*	*2023*	*2024*	*2023*
Plastic cards operations	148,147	115,557	–	–	**148,147**	**115,557**
Settlement transactions	21,405	18,437	14,566	2,940	**35,971**	**21,377**
Servicing guarantees and letters of credit	13,005	11,505	213	169	**13,218**	**11,674**
Cash transactions	7,350	5,962	–	–	**7,350**	**5,962**
Others	10,987	5,750	66	8	**11,053**	**5,758**
Fee and commission income	**200,894**	**157,211**	**14,845**	**3,117**	**215,739**	**160,328**

23. Operating expenses

Operating expenses for the years comprise:

	2024	*2023*
Staff costs	(225,174)	(188,101)
Depreciation of premises, equipment, and right-of-use assets	(26,728)	(26,187)
Fees paid to deposit insurance funds	(15,192)	(14,777)
Consultancy and other professional services	(14,890)	(12,119)
Software maintenance	(14,286)	(9,656)
Advertising and marketing services	(10,616)	(9,622)
Amortisation of software and other intangible assets	(9,112)	(10,664)
Sponsorship fee	(8,194)	(3,941)
Premises, property and maintenance	(8,166)	(4,619)
Communication	(8,066)	(8,082)
Legal claims	(4,604)	(6,700)
Outsourced staffing and security	(4,479)	(4,016)
Customs duties and taxes other than on income	(3,391)	(3,462)
Stationery, books, printing, and other supplies	(2,318)	(1,905)
Insurance expense	(1,972)	(1,957)
Utilities	(1,211)	(1,696)
Charity and financial aid	–	(1,000)
Others	(9,234)	(5,617)
Operating expenses	**(367,633)**	**(314,121)**

Fees charged to the Group for the provision of services by all EY network firms during the year covered by the consolidated financial statements are AZN 521,500 (2023: AZN 491,500) and AZN 175,234 (2023:AZN 307,518) for audit and non-audit services, respectively.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management

Introduction

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, liquidity risk and market risk, the latter being subdivided into trading and non-trading risks. It is also subject to operating risks.

The independent risk control process does not include business risks such as changes in the environment, technology or industry. They are monitored through the Group's strategic planning process.

The Supervisory Board is ultimately responsible for identifying and controlling risks; however, there are separate independent bodies responsible for managing and monitoring risks.

Supervisory Board

The Supervisory Board is responsible for the overall risk management approach and for approving the risk strategies and principles.

Audit Committee

The Audit Committee has the overall responsibility for the establishment and development of the audit mission and strategy. It is responsible for fundamental audit issues and monitoring Internal Audit's activities.

Management Board

The Management Board has the responsibility to monitor the overall risk process within the Group.

Risk Committee

The Risk Committee has the overall responsibility for the development of the risk strategy and implementing principles, frameworks, policies and limits. It is responsible for the fundamental risk issues and manages and monitors relevant risk decisions.

Risk management structure

Risk Management

The Risk Management Department is responsible for implementing and maintaining risk related procedures to ensure an independent control process.

Bank Treasury

The Bank Treasury is responsible for managing the Group's assets and liabilities and the overall financial structure. It is also primarily responsible for the funding and liquidity risks of the Group.

Internal Audit

Risk management processes throughout the Group are audited annually by the internal audit function, which examines both the adequacy of the procedures and the Group's compliance with the procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Audit Committee.

Risk measurement and reporting systems

The Group's risks are measured using a method which reflects both the expected loss likely to arise in normal circumstances and unexpected losses, which are an estimate of the ultimate actual loss based on statistical models. The models make use of probabilities derived from historical experience, adjusted to reflect the economic environment. The Group also runs worse case scenarios that would arise in the event that extreme events which are unlikely to occur do, in fact, occur.

Monitoring and controlling risks is primarily performed based on limits established by the Group. These limits reflect the business strategy and market environment of the Group as well as the level of risk that the Group is willing to accept, with additional emphasis on selected industries. In addition, the Group monitors and measures the overall risk bearing capacity in relation to the aggregate risk exposure across all risk types and activities.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Risk management structure (continued)

Information compiled from all the businesses is examined and processed in order to analyse, control and identify early risks. This information is presented and explained to the Management Board, the Risk Committee, and the head of each business division. The report includes aggregate credit exposure, hold limit exceptions and liquidity ratios. On a monthly basis detailed reporting of industry, customer and geographic risks takes place. Senior management assesses the appropriateness of the allowance for credit losses on a quarterly basis. The Supervisory Board receives a comprehensive risk report once a quarter which is designed to provide all the necessary information to assess and conclude on the risks of the Group.

For all levels throughout the Group, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information.

A daily briefing is given to the Management Board and all other relevant employees of the Group on the utilization of market limits and liquidity, plus any other risk developments.

Risk mitigation

The Group actively uses collateral to reduce its credit risks.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risks, the Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit and customer's deposit risks are controlled and managed accordingly.

Credit risk

Credit risk is the risk that the Group will incur a loss because its customers, clients or counterparties failed to discharge their contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Group has established a credit quality review process to provide early identification of possible changes in the creditworthiness of counterparties, including regular collateral revisions. Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a risk rating. The credit quality review process allows the Group to assess the potential loss as a result of the risks to which it is exposed and take corrective action.

Credit-related commitment risks

The Group makes available to its customers guarantees which may require that the Group make payments on their behalf. Such payments are collected from customers based on the terms of the letter of credit. They expose the Group to similar risks to loans and these are mitigated by the same control processes and policies.

The maximum exposure to credit risk for the components of the consolidated statement of financial position, including derivatives, before the effect of mitigation through the use of master netting and collateral agreements, is best represented by their carrying amounts.

Where financial instruments are recorded at fair value, the carrying value represents the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

For more detail on the maximum exposure to credit risk for each class of financial instrument, references shall be made to the specific notes.

Impairment assessment

The Group calculates ECL based on several probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive. The mechanics of the ECL calculations are outlined below and the key elements are as follows:

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Credit risk (continued)

PD	The *Probability of Default* is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.
EAD	The *Exposure at Default* is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.
LGD	The *Loss Given Default* is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL). The 12mECL is the portion of LTECL and results from default events on a financial instrument which are possible within 12 months after the reporting date. Both LTECL and 12mECL are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Group has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. Based on the above process, the Group allocates its loans into Stage 1, Stage 2, Stage 3 or POCI, as described below:

Stage 1:	When loans are first recognised, the Group recognises an allowance based on 12mECL. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.
Stage 2:	When a loan has shown a significant increase in credit risk since origination, the Group records an allowance for the LTECL. Stage 2 loans also include facilities, where the credit risk has improved, and the loan has been reclassified from Stage 3.
Stage 3:	Loans considered credit-impaired. The Group records an allowance for the LTECL.
POCI:	Purchased or originated credit impaired (POCI) assets are financial assets that are credit impaired on initial recognition. POCI assets are recorded at fair value at original recognition and interest revenue is subsequently recognised based on a credit-adjusted EIR. ECL are only recognised or released to the extent that there is a subsequent change in the lifetime expected credit losses.

Definition of default and cure

The Group considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments. The Group considers amounts due from banks defaulted and takes immediate action when the required intraday payments are not settled by the close of business as outlined in the individual agreements.

As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate. Such events include:

- Default and credit-impaired assets:
  - Loans with the principal amount and/or accrued interest and/or any of other payment overdue by more than 90 days from the date specified in the contract;
  - Loans that have been restructured with significant NPV losses;
  - Any loan considered by management as non-performing.
- Existing of information that borrower will/has enter bankruptcy, insolvency or a similar condition;
- Default on other financial instruments of the same borrower;
- Default according to external rating.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Credit risk (continued)

It is the Group's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria have been present for at least six consecutive months. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates there has been a significant increase in credit risk compared to initial recognition.

PD estimation process

The Group has developed a scoring model for collective assessment. Each borrower in a credit portfolio is assigned a score based on the internal scoring model that creates scores for one-year PD assessments. Lifetime PD is calculated based on the migration matrices approach. The scoring model captures different risk levels depending on exposure/client characteristics and a total score is assigned to a contract based on the weighted sum of points for each characteristic of financial quality of a portfolio unit. To consider the impact of macroeconomic factors on probability of default, the sensitivity of probabilities to macroeconomic factors is calculated by a statistical regression method. Where practicable, PDs incorporate forward-looking macroeconomic information, and the IFRS 9 stage classifications of the exposure are assigned for each grade. This is repeated for each economic scenario as appropriate.

Impairment assessment of Russian investment securities

For the counterparty Russian companies present in debt securities portfolio of the Group, cumulative PD is estimated using S&P rating transition matrices. As at 31 December 2024, ECL for Russian investment securities is estimated based on qualitative and quantitative factors for Stage determination:

- Currency of the debt security and last coupon payment;
- Transfer of the clearing house to the National Settlement Depository of Russian Federation;
- Coupons' collection and overdue days on latest coupon.

Due to withdrawal of ratings by the international credit agencies, the Group assigns PD of the companies based in Russia using a rating one notch higher than default (CCC-), whereas LGD is based on historical recovery rates based on Moody's annual default study.

Treasury and interbank relationships

The Group's treasury and interbank relationships and counterparties comprise financial services institutions, banks, broker-dealers, exchanges and clearing-houses. For these relationships, the Group's credit risk department analyses publicly available information such as financial information and other external data (e.g., external ratings).

Consumer lending and residential mortgages

Consumer lending comprises unsecured personal loans, credit cards and overdrafts. These products along with residential mortgages and some of the less complex small business lending are rated by an automated scorecard tool primarily driven by days past due. Other key inputs to the models are the oil price, exchange rate, annual real GDP growth, the unemployment rate and others.

Corporate and small business lending

The same approach and inputs for consumer lending apply to corporate and small business lending. For corporate loans that are significant to the Group's financial statements, the borrowers are assessed by specialised credit risk employees of the Group.

Exposure at default

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the client's ability to increase its exposure while approaching default as well as potential early repayments.

Loss given default

The credit risk assessment is based on a standardised LGD assessment framework that results in a certain LGD rate. These LGD rates take into account the expected EAD in comparison to the amount expected to be recovered or realised from any collateral held. The recovery rate is estimated based on historical recoveries analysis. The Group segments its retail lending products into smaller homogeneous portfolios based on key characteristics that are relevant to the estimation of future cash flows. The applied data is based on historically collected loss data and involves a wider set of transaction characteristics (e.g., product type, wider range of collateral types) as well as borrower characteristics.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Credit risk (continued)

Where appropriate, further recent data and forward-looking economic scenarios are used in order to determine the IFRS 9 LGD rate for each group of financial instruments. When assessing forward-looking information, the expectation is based on multiple scenarios.

LGD rates are estimated for the Stage 1, Stage 2, Stage 3 and POCI segment of each asset class. The inputs for these LGD rates are estimated and, where possible, calibrated through back testing against recent recoveries. These are repeated for each economic scenario as appropriate.

Significant increase in credit risk

The Group continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12mECL or LTECL, the Group assesses whether there has been a significant increase in credit risk since initial recognition.

The Group also applies a secondary qualitative method for triggering a significant increase in credit risk for an asset, such as moving a customer/facility to the watch list, or the account becoming restructured due to a credit event. In certain cases, the Group may also consider that events explained in the Definition of default section above comprise a significant increase in credit risk as opposed to a default. Regardless of the change in credit grades, if contractual payments are more than 30 days past due, the credit risk is deemed to have increased significantly since initial recognition.

When estimating ECLs on a collective basis for a group of similar assets, the Group applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Grouping financial assets measured on a collective basis

Depending on the factors below, the Group calculates ECLs either on a collective or on an individual basis.

Asset classes where the Group calculates ECL on an individual basis include:

- All significant Stage 3 assets, regardless of the class of financial assets;
- Treasury and interbank relationships (such as amount due from banks, cash equivalents and debt investment securities at amortised cost and FVOCI).

Asset classes where the Group calculates ECL on a collective basis include:

- The smaller and more generic balances of the Group's small business lending;
- Stage 1 and 2 retail mortgages, consumer lending and the corporate lending portfolio.

The Group allocates these exposures to smaller homogeneous portfolios based on a combination of internal and external characteristics of the loans, for example an overdue bucket or a product type.

Forward-looking information and multiple economic scenarios

In its ECL models, the Group relies on a broad range of forward-looking information as economic inputs, such as:

- Oil prices;
- Real GDP growth year to year;
- Unemployment rates;
- Foreign exchange rates;
- CPI growth year to year.

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the consolidated financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Credit risk (continued)

Credit quality per class of financial assets

The Group's internal credit rating grades are as follows:

Scoring based on probability of default for loans to customers	***S&P ratings' based on internal/external ratings for Financial Institutions***	***Internal rating description***
0%-10%	BBB+ to B-	Standard
10%-50%	CCC+ to C	Sub-standard
50%-100%	D	Impaired

The probability of default is used as a basis for internal ratings of corporate customers, while the S&P rating is used for financial institutions. Financial instruments are considered high grade when they are either rated AAA to A- or when they are denominated in AZN and are with (or guaranteed by) the Government of Azerbaijan.

Credit quality per class of financial assets

The credit quality of financial assets is managed by the Group's internal credit ratings, as described above. The table below shows the credit quality by class of asset for loan-related lines in the consolidated statement of financial position, based on the Group's credit rating system.

(Figures in tables are in thousands of Azerbaijani manats)

Liquidity risk and funding management

The Group maintains a portfolio of highly marketable and diverse assets that can be easily liquidated in the event of an unforeseen interruption of cash flow. In addition, the Group maintains obligatory reserves with the CBAR and the CBR, the amount of which depends on the level of customer funds attracted.

The liquidity position is assessed and managed by the Group based on certain liquidity ratios established by the CBAR. As at 31 December 2024 and 2023, these ratios were as follows:

	2024, %	*2023, %*
Instant Liquidity Ratio (30% is the minimum required by the CBAR) (assets receivable or realisable within one day* / liabilities repayable on demand)	43	40

* *The deposits held in the CBAR are not taken into account.*

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Liquidity risk and funding management (continued)

Analysis of financial liabilities by remaining contractual maturities

The table below summarises the maturity profile of the Group's financial liabilities at 31 December 2024 and 2023 based on contractual undiscounted repayment obligations. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Group does not expect many customers to request repayment on the earliest date the Group could be required to pay and believes that the table does not reflect the expected cash flows indicated by the Group's deposit retention history.

Financial liabilities	*Less than 1 month*	*1 to 6 months*	*6 to 12 months*	*Over 12 months*	*Total 2024*
As at 31 December 2024					
Due to banks and other financial institutions	396,166	18,037	–	–	**414,203**
Customer accounts	8,039,287	1,024,141	860,974	1,024,943	**10,949,345**
Payables to CJSC Agrarkredit	54,304	–	–	–	**54,304**
Other borrowed funds	12,102	16,515	17,158	330,562	**376,337**
Debt securities issued	–	5,500	5,500	111,000	**122,000**
Other financial liabilities (excluding credit loss allowance for credit related commitments)	69,232	3,935	4,448	24,222	**101,837**
Total undiscounted financial liabilities	**8,571,091**	**1,068,128**	**888,080**	**1,490,727**	**12,018,026**

Financial liabilities	*Less than 1 month*	*1 to 6 months*	*6 to 12 months*	*Over 12 months*	*Total 2023*
As at 31 December 2023					
Due to banks and other financial institutions	533,057	45,238	–	–	**578,295**
Customer accounts	8,695,995	673,874	501,147	490,044	**10,361,060**
Payables to CJSC Agrarkredit	61,950	–	–	–	**61,950**
Other borrowed funds	22,637	24,615	13,514	275,565	**336,331**
Debt securities issued	–	21,860	497,983	–	**519,843**
Other financial liabilities (excluding credit loss allowance for credit related commitments)	86,667	3,209	3,595	24,140	**117,611**
Total undiscounted financial liabilities	**9,400,306**	**768,796**	**1,016,239**	**789,749**	**11,975,090**

As of 31 December 2024, other borrowed funds included balances to Mortgage and Credit Guarantee Fund in the amount of AZN 169,695 thousand (31 December 2023: AZN 137,617 thousand) maturing within more than 5 years.

The table below shows the contractual expiry by maturity of the Group's financial commitments and contingencies.

	Up to 1 month	*1 to 6 months*	*6 to 12 months*	*More than 12 months*	*Total*
As at 31 December 2024	731,111	389,125	197,371	190,737	**1,508,344**
As at 31 December 2023	726,534	610,476	295,206	251,524	**1,883,740**

The Group's financial commitments and contingencies are contractually on demand. However, the Group expects that not all of the contingent liabilities or commitments will be drawn before expiry of the commitments.

The Group's capability to repay its liabilities relies on its ability to realise an equivalent amount of assets within the same period of time. There is a significant concentration of deposits from organisations of related parties in the period of one year. Any significant withdrawal of these funds would have an adverse impact on the operations of the Group.

Management believes that this level of funding will remain with the Group for the foreseeable future and that in the event of withdrawal of funds, the Group would be given sufficient notice so as to realise its liquid assets to enable repayment.

.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Liquidity risk and funding management (continued)

The maturity analysis does not reflect the historical stability of current accounts. Their liquidation has historically taken place over a longer period than indicated in the tables above. These balances are included in the amounts due in less than one month in the tables above.

Operational risk

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but through a control framework and by monitoring and responding to potential risks, the Group is able to manage the risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit.

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchanges and equity prices. The Group manages exposures to market risk based on sensitivity analysis. The Group has no significant concentration of market risk.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

The sensitivity of current year profit is the effect of the assumed changes in interest rates on the net interest income for one year, based on the floating rate non-trading financial assets and financial liabilities held at 31 December 2024. The Group does not have a substantial amount of floating rate non-trading financial instruments as at 31 December 2024 and 2023.

The sensitivity of equity is calculated by revaluing fixed rate debt financial assets measured at FVOCI at 31 December 2024 for the effects of the assumed changes in interest rates based on the assumption that there are parallel shifts in the yield curve.

Currency	*Change in basis points 2024*	*Sensitivity of equity 2024*	*Sensitivity of equity 2023*
National currency	*- 100 bp / + 100 bp*	239 / (239)	1,106 / (1,106)
Foreign currency	*- 100 bp / + 100 bp*	13,069 / (13,069)	17,303 / (17,303)

Currency risk

Currency risk is defined as the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group is exposed to the effects of fluctuations in the prevailing foreign currency exchange rates on its statement of financial position and statement of cash flows.

The Assets and Liabilities Management Committee controls currency risk by management of the open currency position on the estimated basis of AZN devaluation and other macroeconomic indicators, which gives the Group an opportunity to minimize losses from significant currency rate fluctuations toward its national currency. The Treasury Department performs daily monitoring of the Group's open currency position with the aim to meet the regulatory requirements.

Currency risk sensitivity

The following table details the Group's sensitivity to increases and decreases in the USD and EUR against the AZN. These are the sensitivity rates used when reporting foreign currency risk internally to key management personnel and represent management's assessment of the possible change in foreign currency exchange rates. The sensitivity analysis includes only outstanding foreign currency-denominated monetary items and adjusts their translation at the end of the period for specified changes in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower.

(Figures in tables are in thousands of Azerbaijani manats)

24. Risk management (continued)

Currency risk (continued)

Impact on profit before tax based on asset and liabilities values as at 31 December 2024 and 2023:

	31 December 2024		*31 December 2023*	
USD	+2% / -2%	(16,069) / 16,071	+10% / -10%	(108,435) / 108,435
EUR	+8.6 / -5.5%	(5,444) / 3,500	+10% / -10%	(1,955) / 1,955

Impact on other comprehensive income based on asset and liabilities values as at 31 December 2024 and 2023 is as follows:

	31 December 2024		*31 December 2023*	
USD	+2% / -2%	2,427 / (2,427)	+10% / -10%	9,969 / (9,969)

25. Fair value measurements

Fair value hierarchy

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy:

		Fair value measurement using			
	Date of valuation	*Quoted prices in active markets (Level 1)*	*Significant observable inputs (Level 2)*	*Significant unobservable inputs (Level 3)*	*Total*
Assets measured at fair value					
Investment securities at FVOCI	31 December 2024	582,308	40,458	–	**622,766**
Investment securities at FVPL	31 December 2024	17,032	–	–	**17,032**
Office premises	31 December 2024	–	–	163,992	**163,992**
Assets for which fair values are disclosed					
Investment securities at amortised cost	31 December 2024	1,745,507	141,161	849,968	**2,736,636**
Loans to customers	31 December 2024	–	231,838	5,883,374	**6,115,212**

		Fair value measurement using			
As at 31 December 2024	*Date of valuation*	*Quoted prices in active markets (Level 1)*	*Significant observable inputs (Level 2)*	*Significant unobservable inputs (Level 3)*	*Total*
Liabilities for which fair values are disclosed					
Customer accounts	31 December 2024	–	7,946,658	2,834,037	**10,780,695**
Other borrowed funds	31 December 2024	–	244,800	–	**244,800**
Debt securities issued	31 December 2024	100,368	–	–	**100,368**

(Figures in tables are in thousands of Azerbaijani manats)

25. Fair value measurements (continued)

Fair value hierarchy (continued)

	Date of valuation	Fair value measurement using: Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Assets measured at fair value					
Investment securities at FVOCI	31 December 2023	953,734	176,887	–	**1,130,621**
Investment securities at FVPL	31 December 2023	3,415	–	–	**3,415**
Office premises		–	–	158,503	**158,503**
Assets for which fair values are disclosed					
Investment securities at amortised cost	31 December 2023	559,154	250,703	110,531	**920,388**
Loans to customers	31 December 2023	–	198,670	4,726,370	**4,925,040**

As at 31 December 2023	Date of valuation	Fair value measurement using: Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Liabilities for which fair values are disclosed					
Customer accounts	31 December 2023	–	8,398,438	1,866,301	**10,264,739**
Other borrowed funds	31 December 2023	–	229,053	–	**229,053**
Debt securities issued	31 December 2023	12,040	468,071	–	**480,111**

Set out below is a comparison by class of the carrying amounts and fair values of the Group's financial instruments as at 31 December that are not carried at fair value in the consolidated statement of financial position. The table does not include the fair values of non-financial assets or non-financial liabilities.

	Carrying value 2024	*Fair value 2024*	*Carrying value 2023*	*Fair value 2023*
Financial assets				
Cash and cash equivalents	2,173,685	2,173,685	2,816,799	2,816,799
Mandatory cash balances with central banks	1,708,207	1,708,207	1,823,961	1,823,961
Due from banks and other financial institutions	53,109	53,109	1,571,285	1,571,285
Investment securities at amortized cost	2,719,850	2,736,636	918,233	920,388
Loans to customers	6,171,698	6,115,212	4,910,003	4,925,040
Receivables from CJSC Agrarkredit	228,932	228,932	294,902	294,902
Other financial assets	131,365	131,365	169,623	169,623
Financial liabilities				
Due to banks and other financial institutions	413,837	413,837	577,300	577,300
Customer accounts	10,779,074	10,780,695	10,261,807	10,264,739
Payables to CJSC Agrarkredit	54,304	54,304	61,950	61,950
Other borrowed funds	244,800	244,800	229,053	229,053
Debt securities issued	100,368	100,368	496,968	480,111
Other financial liabilities	119,950	119,950	121,418	121,418

The following is a description of the determination of fair value for financial instruments which are recorded at fair value using valuation techniques. These incorporate the Group's estimate of assumptions that a market participant would make when valuing the instruments.

(Figures in tables are in thousands of Azerbaijani manats)

25. Fair value measurement (continued)

Fair value hierarchy (continued)

Fixed rate financial instruments

The fair value of fixed rate financial assets and liabilities carried at amortised cost is estimated by comparing market interest rates when they were first recognised with current market rates offered for similar financial instruments. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and maturity. For quoted debt issued the fair values are calculated based on quoted market prices. For those notes issued where quoted market prices are not available, a discounted cash flow model is used based on a current interest rate yield curve appropriate for the remaining term to maturity.

Investment securities

Investment securities valued using a valuation technique or pricing models primarily consist of debt securities. These securities are valued using models which sometimes only incorporate data observable in the market and at other times use both observable and non-observable data. The non-observable inputs to the models include assumptions regarding the future financial performance of the counterparty, its risk profile, and economic assumptions regarding the industry and geographical jurisdiction in which the counterparty operates.

26. Maturity analysis of assets and liabilities

The table below shows assets and liabilities as at 31 December 2024 and 2023 by their remaining contractual maturity, by when the Group has a right to realise the assets and an obligation to settle the liabilities. The Group considers assets and liabilities with a remaining contractual maturity of Within one year as current, and assets and liabilities with remaining contractual maturity of More than one year as non-current. The Group's contractual undiscounted repayment obligations are disclosed in Note 24.

	2024			*2023*		
	Within one year	***More than one year***	***Total***	***Within one year***	***More than one year***	***Total***
Cash and cash equivalents	2,173,685	–	**2,173,685**	2,816,799	–	**2,816,799**
Mandatory cash balances with central banks	1,708,207	–	**1,708,207**	1,823,961	–	**1,823,961**
Due from banks and other financial institutions	46,560	6,549	**53,109**	1,563,109	8,176	**1,571,285**
Investment securities	1,331,783	2,027,865	**3,359,648**	761,078	1,291,191	**2,052,269**
Loans to customers	2,553,725	3,617,973	**6,171,698**	2,031,590	2,878,413	**4,910,003**

Other borrowed funds	41,168	203,632	**244,800**	54,929	174,124	**229,053**
Debt securities issued	–	100,368	**100,368**	496,968	–	**496,968**
Current income tax liabilities	1,363	–	**1,363**	2,178	–	**2,178**
Deferred income tax liabilities	–	68,988	**68,988**	–	55,085	**55,085**
Other liabilities	187,387	19,663	**207,050**	179,768	18,329	**198,097**
Total liabilities	**10,534,353**	**1,335,431**	**11,869,784**	**11,198,556**	**683,882**	**11,882,438**
Net (liabilities)/assets	**(2,460,282)**	**4,734,360**	**2,274,078**	**(1,918,003)**	**3,964,894**	**2,046,891**

The matching and controlled mismatching of the maturities of assets and liabilities is fundamental to management of the Group. An unmatched position potentially enhances profitability and leverage but can also increase the risk of unexpected losses. The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest–bearing liabilities as they mature, are important factors in assessing the liquidity of the Group and its exposure to changes in interest and exchange rates.

(Figures in tables are in thousands of Azerbaijani manats)

26. Maturity analysis of assets and liabilities (continued)

Management believes that in spite of a substantial portion of amounts due to customers being on demand, diversification of these deposits by number and type of depositors, and the past experience of the Group indicates that these amounts provide a long-term and stable source of funding. Management believes that it is unlikely that unusually large number of customers will withdraw their funds in a short time span.

The customers who hold the largest current account deposits with the Group have a long-established history as the Group's customers, and are mostly related parties to the Group. Management believes that this level of funding will remain with the Group for the foreseeable future and that in the event of withdrawal of funds, the Group would be given sufficient notice so as to realise its liquid assets to enable repayment.

The CBAR's minimum liquidity norm for banks of 30% is a reasonable precautionary measure taken by the regulator, which is based on the nature and established normal business practice in banking industry. The Group has a reasonably high headroom above the minimum required liquidity ratio. The Bank's actual instant liquidity ratio is 43.09% and liquidity coverage ratio is 126.4% as at 31 December 2024 (2023: instant liquidity ratio 39.36%, liquidity coverage ratio 98.4%).

Although the Group holds considerable amounts of investment securities maturing in more than one year, the Group is able to sell a substantial portion of such securities on an open market in case of urgent liquidity needs.

The Group has established Treasury Department and Asset Liabilities Management Committee, which are responsible for overseeing the Group's liquidity on day-to-day basis.

(Figures in tables are in thousands of Azerbaijani manats)

27. Related party disclosures

In accordance with IAS 24 *Related Party Disclosures*, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form. Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be affected on the same terms, conditions and amounts as transactions between unrelated parties.

The volumes of related party transactions, outstanding balances as at 31 December, and related expense and income for the year are as follows:

	2024		*2023*	
	Related party balances	***Total category as per the financial statements item***	***Related party balances***	***Total category as per the financial statements item***

28. Capital adequacy

The Group maintains an actively managed capital base to cover risks inherent in the business. The adequacy of the Group's capital is managed by the ratios established by the Basel III and monitored using the ratios established by the regulator.

The primary objectives of the Group's capital management are to ensure that the Group complies with externally imposed capital requirements and that the Group maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholder value.

(Figures in tables are in thousands of Azerbaijani manats)

28. Capital adequacy (continued)

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payments to shareholders, return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

Compliance with capital adequacy ratios set by the regulator is monitored monthly with reports outlining their calculation reviewed and signed by the Group's Chief Financial Officer (CFO).

Regulatory capital adequacy ratio

The CBAR requires banks to maintain a minimum Tier 1 and total capital adequacy ratio of 6% and 12% respectively, of risk-weighted assets for regulatory capital. As at 31 December 2024, the Bank was in compliance with these requirements.

Capital adequacy ratio under the Basel III

The Group's international risk based capital adequacy ratio is computed in accordance with the Basel Capital Accord 1988, with subsequent amendments including the amendment to incorporate market risks.

As at 31 December 2024 and 2023, Tier 1 capital and Total capital ratios exceeded the minimum ratio of 6.0% and 8.0% recommended by the Basel Accord, respectively, as disclosed below:

	2024	***2023***
Tier 1 capital	2,246,139	2,014,526
Tier 2 capital	212,354	174,183
Less: deductions from capital	(121,365)	(99,688)
Total capital	**2,337,128**	**2,089,021**
Risk weighted assets	**7,642,765**	**5,997,500**
Tier 1 capital ratio	29.39%	33.59%
Total capital ratio	30.58%	34.83%
